

AD FROM: FASTMILE Logistics

Last Mile Delivery

FASTMILE goes the extra mile in last mile delivery services for business and residential packages. We have 2-person teams who can carry and place bulky items such as furniture or cabinetry. With distributions centers in Orlando, Atlanta, and Charlotte we cover the southeastern USA with same day or next day delivery per the customers' specification.

If you're a retailer, e-commerce company, or manufacturer who is tired of the high prices and limitations of the international companies, such as FEDEX, UPS, and DHL, then give FASTMILE a call. You might be surprised what a regional firm like ours can do for your business and your customers.
