

From... SMART CITY HUB

Cutting edge intelligence for smart city leaders

CT.org is late to the party. Smart City Hub has been around since 2016 publishing interesting and useful work of a wide variety of subjects of interest to small cities and towns. Their website follows with links to a myriad of interesting and insightful articles.

The banner features the Smart City Hub logo on the left, the text "Connect with smart city leaders worldwide" in the center, and a globe icon with a red location pin on the right. Below the banner are several blue underlined links: Energy, Technology and innovation, Collaborative city, Sustainability, Urban planning and building, Mobility, Governance and economy, and Security.

Welcome to Smart City Hub,

Smart City Hub is founded in 2016 to provide cutting edge intelligence for professionals and decision makers working in smart cities worldwide.

On Smart City Hub, smart city leaders will get the latest news, trends and strategies about all aspects of smart cities, like city management, traffic, security, energy & water supply, citizen services, ICT, housing and building.

SCH is hosted by Contact Media, specialist in providing content in a digital world.

Smart City Hub also has a closed group on LinkedIn, only for government people and politicians working in smart cities worldwide. [Please join the group here](#), and follow us on

Twitter [@smartcityhubcom](#).

If you need any information about advertising on this site, or want to know more about the services we provide, please send a mail to info@smartcityhub.com and we will be in touch shortly.

Best regards,

Arnoud van Gemeren, Owner and Publisher ([LinkedIn](#))
